RE: Program Book

Dear Artist,

Thanks for your interest in providing art for the ArmadilloCon program book. Let me give you some information about what I want.

The primary purpose of the art is to be used as spot illustrations to liven up pages that would otherwise be filled with text. The program book will be printed in black-and white, with letter-sized pages (8.5 x 11 inches). I want art that will look good when printed at sizes such as a sixth of a page or smaller.

Preferably the theme of the art should be related to the topics of the con: science fiction, fantasy, mystery, horror, science, books, gaming, movies, etc. Humorous pieces would be particularly appreciated.

I'm assembling the program book on a computer, so electronic submission is preferred. Any common graphics file format is fine (PDF, TIFF, GIF, PNG, JPG, PSD, AI, etc.) Please provide scans at resolutions of 300 dots per inch. If you're submitting one or two pieces of art, feel free to send them as emails attachments to me at program@fact.org. If you want to submit many pieces, it would probably be best if you put them on a web site and sent me the URL.

Those who prefer to submit hardcopies can send them to the convention mailing address: Program Book, ArmadilloCon 27, PO Box 27277, Austin, TX 78755.

Since I won't know how much art I'll need until close to publication time, I can't promise to use all pieces submitted. I do promise to give art credits for work printed in the program book, and acknowledgements to everyone who submitted.

Thanks for your help with the con.

John Gibbons
ArmadilloCon 27 Program Book Editor
